

**Pleasant Family Dentistry  
1204 Two Island Court  
Mt. Pleasant, SC 29466  
(843) 881-8881**

Dear New Patient,

Welcome to our office! We are glad you have chosen our office to fulfill your dental needs.

Your upcoming appointment is for a comprehensive dental exam. During this exam we will get to know you and your mouth by taking x-rays, assessing your dental needs and working with you to develop a treatment plan. We will also set up your hygiene appointment based on your needs. **Your hygiene appointment may not be the same day as your exam.**

We wanted to take the time to tell you about an x-ray special that we offer to our new patients. We pride ourselves on being a very thorough dental office, which sometimes means that we may recommend something that your insurance does not fully cover. The doctor recommends taking a Full Mouth Series and a Panorex. The following are some of the things that we can see by taking both:

- Decay between the teeth or under existing restorations
- Receding bone level (a sign of periodontal disease)
- Missing, impacted, or un-erupted teeth
- Bone cancer or bony cysts
- Early signs of Osteoporosis
- Root Fragments
- Root Configurations
- Sinus troubles
- Abscesses of the teeth or gums
- Tooth position
- Foreign objects that may be imbedded in the oral tissues
- Hairline fractures of the teeth or supporting tissues
- Tartar (hardened plaque) below the gum line
- Filling overhangs or short or open margins
- TMJ (jaw joint) irregularities.

We understand that most insurance policies only cover one of these x-rays every 3-5 years so we are offering you a special discount. Usually to take both you would have to pay \$100 for the Panorex. If you take both x-rays today we will reduce the price of the Panorex to only \$35. We look forward to meeting you soon.
